

Ada - Sciera

The person that influences me, is my Best Friend, I have known her for about a year, we are in the same class, and we are with each other 2<sup>nd</sup>-7, her name is molly and I love her as a friend.

One reason molly influences me is that she keeps me in line, like if I am not paying attention in class (because I have ADHD and ADD) she will make me pay attention.

Molly also makes me laugh but just the right amount like when we are in class so I don't get in trouble.

Lastly molly is trust worthy, say if I am with her and tell her a secret she won't even tell a fly. I would also trust her to watch my pets because she takes good care of her pets.

In conclusion molly is very important to me and again I love her as a friend.
